

SOFTENERS FOR THAT TOUCH OF CLASS !

1)	ACTIPEACH-CONC	Piprazine derivative for Peach skin effect and Soft handle. Compatible with soft flow machines.
2)	ARNATEX-PLUS	Organo modified silicone (Emulsion type)
3)	ASCONIT-NYX	A non-yellowing imidazoline type softener. Ideal for knits.
4)	ASTROGEN-PLUS	"Mini Emulsion" of Siloxane.
5)	CARBOSOFT	A Synthetic lubricant for improving tensile and tear strength. Also excellent sewing lubricant.
6)	IKONSOFT-PLUS	For Bouncy and luxurious feel for P/V & P/W substrate.
7)	ISOTEX	Isocynate based reactive softener.
8)	SINOGEN-PLUS	A Speciality Reactive Macro Emulsion Softener. Jet Stable. Non-Yellowing.
9)	SOSOFT-CONC	Macro Emulsion, Elastomeric
10)	SILOSOFT-PLUS	A Reactive Organo modified silicone
11)	STAYSOFT-PLUS	An Organo modified siloxane, Luxurious Handle.
12)	STARFINISH-PLUS	A Siloxane blocked co-polymer. Imparts all round softness. Non-yellowing.
13)	VIBRASIL-NAN	An Organo Modified Nano Emulsion. Hydrophilic and Luxurious handle.
14)	VELSOFT-DLX	Low yellowing cationic softener.
15)	WAXOFIN-PNW	Paraffin wax based emulsion
16)	YUVASOFT	Semi Silicone Base.
17)	YUKISOFT	Cationic, Fatty Acid based softener.
1)	ALPHATEX-PLUS	Synthetic Latex improves crease recovery and Drape specially for P/V.
2)	ALPHASIL-DRX	A speciality Micro Emulsion, designed to give stretch back, bounce, improve crease recovery, bulk and volume for a wide variety of the fabric. Ideal adjunct to fluorocarbon finish.
3)	APRILOSE-TRX	All in one Wicking, Hydrophilic, Anti-Static & Soil releasing agent.
4)	APROTEX/ACRYTEX	Thermoplastic acrylic co-polymer for soft and crisp handle.

5)	ASCODEEP-DPX	A dye deepener. Deepening of the shades possible upto 40% on selective dyes & Substrates.
6)	ASCOPIIL-CONC	A Par excellence antipilling/ antislipping agent. Durable to multi washes.
7)	CELAFINISH	Antipilling & Antislipping Agent. Polymer base.
8)	CREASOTEX-ULF	A Low Formaldehyde based DMDHEU Resin. Conforms to international standard for free formaldehyde.
9)	CREASOTEX-ULFC	A Low Formaldehyde based DMDHEU Resin with built in Catalyst . Conforms to International standard for free formaldehyde.
10)	TEXADEX	A Vinyl co-polymer for body and fullness agent. Good body with soft feel.
11)	TEXADYNE	Acetamide Polymer for finishing agent. Good body with soft feel.
12)	TEXOPHIL-PLUS	A Super Hydrophilic Softener. Exhaustible and Jet Stable.
